

Sobremesa

BRAND GUIDELINES · V1.0

THE IDEA

Sobremesa (Spanish) is the time spent lingering at the table after a meal — talking, not scrolling. The logo holds the whole brand in one image: a **speech bubble** (conversation, presence) wrapped around a **crossed fork and knife** (the meal). Talk over food. Phones away.

LOGO — MARK & PROTECTION

Icon mark · App icon tile

Clear space & minimum size

Keep clear space around the mark equal to the height of the speech-bubble tail. Don't reproduce the icon below 24 px; below that, drop the tail for legibility.

Ratio guide: lead with **Forest** (≈70%), use **Amber** as the single accent (≈20%), and **Cream** for text (≈10%). Amber is for emphasis — never body copy, and for legibility never set small text in Amber on Forest.

TYPOGRAPHY

WORDMARK	sobremesa Helvetica Neue / system sans · weight 600 · lowercase · +1 tracking
TAGLINE	PHONE-FREE DINING Uppercase · weight 600 · +6 tracking · Amber Deep
HEADINGS (UI)	Put your phone away System sans · weight 800
BODY	Look up — the table is where the good stuff is. System sans · weight 400–600 · Cream

The app ships with the platform system font (San Francisco on iOS, Roboto on Android). The wordmark uses Helvetica Neue — convert it to outlines in exported logos so the brand never depends on an installed font.

VOICE & TAGLINES

Phone-Free Dining

Be here for the meal.

Linger at the table.

Presence over screens.

The conversation is the main course.

Tone: warm, hospitable, never preachy. We invite, we don't scold. We celebrate presence rather than shame the phone.

USAGE

DO

- Lead with Forest green; let Amber be the one thing that glows.
- Keep generous clear space around the mark.
- Use the icon-only mark for small spaces and avatars.
- Set body text in Cream or Forest for contrast.

DON'T

- Don't recolor the logo outside the palette — no blue. We're the antidote to blue apps.
- Don't stretch, rotate, or add drop shadows to the mark.
- Don't set long text in Amber on Forest — it fails legibility.
- Don't place the mark on a busy photo without a solid backing.

IN ONE LINE

Reduce screen time. Increase the table. **Sobremesa is the antidote to the glowing rectangle — warm, present, and unmistakably not another blue app.**
